

COLOUR PROFILE

The reference profile for all our laboratory's prints is sRGB. The sRGB colour profile must be used as working space in all the applications that allow for it (Photoshop, Lightroom, InDesign...) for perfect correspondence between (calibrated) monitor display and printer.

Cover EDITOR 33x25 - v7 - C34 - von 059 bis 062 Seiten

Please note: all relevant content (text and images that do not extend to the edge of the page) must be positioned inside the grey area enclosed by the MAGENTA LINE (safety margins). All content outside this area could be positioned too close to the cut or be hidden by the binding. If you do wish for your images to be printed near the edge of the sheet, you must drag them to the RED LINE (bleed), so as to create an expendable bleed space between the BLACK LINE (page cut) and the red line (bleed).
