

The diagram shows a rectangular layout for an album cover. It features three nested rectangles: an outermost red line representing the bleed area, a middle black line representing the finished page size or cut line, and an innermost magenta line representing safety margins. A horizontal double-headed arrow labeled 'FRONT COVER VISIBLE AREA' spans from the left edge to the right edge of the magenta line. A vertical double-headed arrow labeled 'FRONT COVER VISIBLE AREA' spans from the top edge to the bottom edge of the magenta line. In the top-left corner, three arrows point to the red, black, and magenta lines with their respective labels. The background of the entire page is a repeating pattern of a camera lens icon.

RED LINE = bleed

BLACK LINE = finished page size / cut line

MAGENTA LINE = safety margins

FRONT COVER VISIBLE AREA

FRONT COVER VISIBLE AREA

### BASIC cover for album 33x33 - v7

Please note:

the cover image must cover **THE WHOLE AREA** up to the red line (extend). If you add text or other elements that must be visible, please ensure that they are within the **MAGENTA LINE (safety margins)**. The cover image will be visible up to the **BLACK LINE (cut line/fold)**.
